Mass spectrometry in the clinical environment

Thursday, September 22, 2016
17:00, Lecture Room 5, LUMC

The CPM (Center for Proteomics and Metabolomics) is one of the Technology Focus Areas within the LUMC. On September 22, from 17:00 to 19:00 you will have the opportunity to learn more about the research focus of the CPM, with particular attention to its collaborations within the LUMC. The title of the symposium (held in Lecture Room 5, building 1, LUMC) is: **Mass spectrometry in the clinical environment**. It will highlight the research topics of the five different groups which are active in the CPM (Metabolomics, Proteomics, Glycomics, MS imaging and Bioinformatics). The aim is to introduce the CPM, its research, and its facilities to other researchers within and outside the LUMC, and to identify new research opportunities. The symposium will be followed by drinks in Het Paleijhs (in front of the lecture room), to offer an informal opportunity to make acquaintance with the people behind the science.

Program

16:45 – 17:00 Reception in Het Paleijhs (1st floor)

17:00 – 18:15 Symposium

- | | |
|-----------------------------|---|
| Prof. Manfred Wuhrer | CPM overview |
| dr. Martin Giera | Understanding inflammatory processes using clinical mass spectrometry |
| dr. Peter van Veelen | HLA-peptidomics, applications in T-cell mediated therapy |
| Guinevere Kammeijer | Glycomics of cancer and autoimmune diseases |
| Bram Heijs | High resolution mass spectrometry imaging in clinical research |
| dr. Magnus Palmblad | Bioinformatics@CPM |

18:15 – 19:00 drinks in Het Paleijhs (1st floor)

For more information, please contact Emanuela Lonardi (e.lonardi@lumc.nl) or Manfred Wuhrer (m.wuhrer@lumc.nl)

CPM | LUMC | LECTURE ROOM 5
22.09.2016 | 5-7PM |
